Corner St. Catherine and St. Denis Streets

AN IMPORTANT PROBLEM SOLVED

This Company recently formed offers the public entirely new plans by which, in favoring the purchaser in every respect eliminates all possibility of loss. No interest charged during the life of contract. In the event of accident causing loss of an eye, limb or total disability the Company will issue warranty deed without any further payments.

In the event of death after the purchaser shall have paid 10 per cent of the purchase price the Company will issue a warranty deed to the heirs of said purchaser without any further payment. Any sales are affected with or without cash.

We also make a specialty of leasing and renting at very lowest cost.
Loans, etc., etc.

"Montreal the Commercial Metropolis of Canada"

COMPRISING

"The Western District of Montreal"

¶ When the improvement in business conditions warrants a community in declaring its great prosperity to the world, it is fitting that its representative commercial interests should set forth this fact in such a manner that it may become known abroad and thereby increase its progress.

¶ We therefore desire this book to proclaim that this improvement in business conditions has manifested itself in Montreal and that few other communities offer greater present advantages and untold future prospects more inviting to investors and homeseekers than our fair city, particularly in its Western Sections.

¶ Montreal the Metropolis of Canada, the industrial centre of the Dominion, is on the threshold of the most prosperous period in her existence. She is the home of great financial, railroad and shipping institutions. Her harbor is the most modern and prosperous shipping Quay in America; her factories ship throughout the world; she is the distributing point for the entire Dominion of Canada. She is the centre of mining activity, being the headquarters for the great asbestos, gold and silver mines. She is an ideal residence city and the best governed in America. These facts place her in the front rank of the metropolitan cities of the world.

J. A. FOISY, O. O.

M. J. A. Foisy est né à Montréal le 25 juin de l'union de J. F. Foisy et Mde M.-L. Labelle. Porté par son goût naturel vers l'étude, il étudia dans divers collèges. Après un brillant cours d'étude il entra à l'Université de Montréal où il fit plusieurs conférences aux Etudiants de Pharmacie et de Bachelier ès-arts. Après quelques années d'étude dans cette institution il se consacra à l'optique où il obtenait des degrés avec grande distinction il y a un an. M. J. A. Foisy est le seul Opticien et Optométriste diplômé de tout St-Henri. Nous nous joignons au groupe nombreux de ses amis pour lui souhaiter d'atteindre le succès dû à son mérite, à son talent et surtout à son travail.

M. N. LAPOINTE
Echevin de Montréal

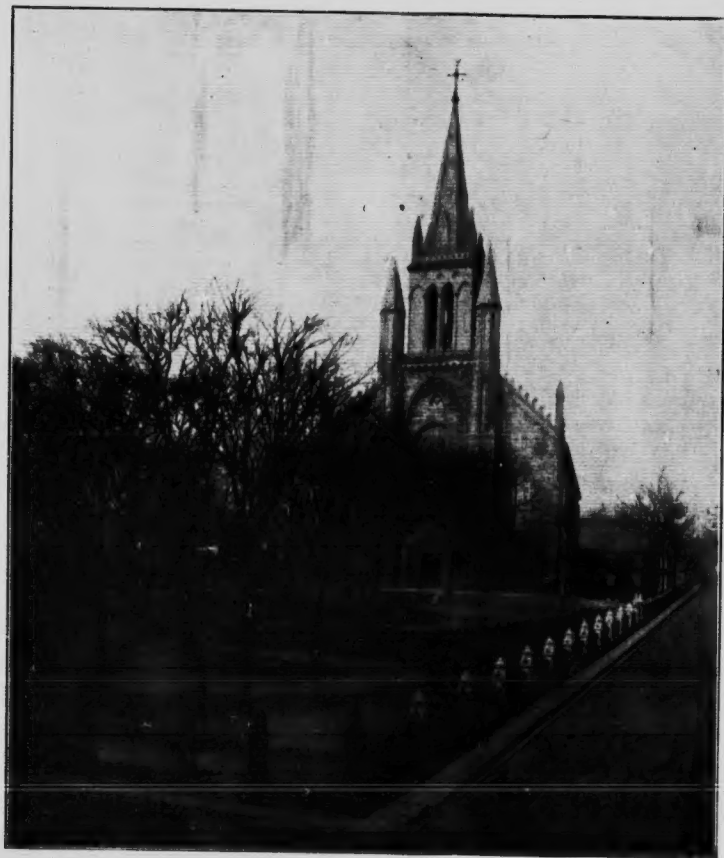

M. N. Lapointe naquit en 1849 à Saint-Michel de Bellechasse. A l'âge de 16 ans, il se dirigeait vers les Etats-Unis, où il pratiquait le métier de machiniste à New-York et à Boston. A 22 ans il revint à Montréal où pendant 18 mois il continua d'exercer son métier. En 1875, il fonda l'important commerce d'épicerie qu'il dirige encore aujourd'hui. Très populaire dans son quartier, il fut élu représentant du quartier St-Joseph en 1902; après 4 ans de politique municipale, M. Lapointe se décidait à quitter son siège, mais six jours après sa résignation, il se voyait offrir la candidature de Sainte-Cunégonde, alors récemment annexée à Montréal, et reprenait ce nouveau la route de l'hôtel-de-ville, chargé du mandat de ses nouveaux électeurs, qu'il représente encore aujourd'hui.

M. Lapointe a épousé en 1872 Mademoiselle Axilda Verdon et est aujourd'hui l'heureux père d'une famille de quatre enfants.

M. B. F. POIRIER, B. A.

this day of organist at St. Vincent de Paul Church. At the age of 21, the University of New Brunswick conferred upon him the degree of Bachelor of Arts.

We take pleasure in introducing to our readers a young musician who has already gained an enviable reputation in Metropolitan musical circles, where he has occupied a prominent position as organist in several churches since a few years.

Born at Tignish, P. E. I., October 17, 1882, Mr. Poirier received his first musical instruction at home; at 13 he entered St. Joseph University, N. B.; in 1896 he was appointed organist of the church of St. Thomas, Memramcook, N. B.

In 1901 he came to Montreal, took charge of the organ at the Seminary of Philosophy until 1904, when he was given charge of the organ and music directorate of Montreal College. In 1906, he assumed charge of the organ at St. Helen Church after presiding at its inauguration.

In 1903, he was called to the organ of St. Patrick's Cathedral and in 1909, was offered the position which he occupies to this day.

MALE ATTIRE BUILDING CORNER DELORIMIER AVENUE AND ONTARIO EAST.

The building in which the highest grade of Men's Clothes is produced.

||| Also the Home of the "Boy Scout Shoe", the best in Canada, manufacture by Scout Shoes Limited, (Branch factory at 200 Papineau Ave.)

THE MALE ATTIRE WAY

I n the making of clothes there is no name that stands higher than that of "Male Attire."

¶ The Male Attire idea has been growing and developing for some time, and since making its appearance it has been given the place of pre-eminence among the manufacturers of exclusive and high class clothes for men.

¶ Take for instance the Male Attire stores in Montreal, which in the last few years have won first place in the minds of the well dressed men in that city. It is the fashionable tailor who has felt their competitive existence rather than the general clothing stores.

¶ The same thing applies to the other large centres throughout Canada, where Male Attire have a chain of stores covering the whole country, from coast to coast.

¶ If you look at the garments they make, the reasons though many, are apparent.

¶ Every garment is made by a specialist, and hand made at that, all silk sewn, and nothing but the best of materials and trimmings are allowed to enter the tailor shops of Male Attire Limited.

¶ The cloths they buy abroad are exclusive and made specially for them, their own patterns, their own finish, and nothing that has been sold to other houses are supplied to Male Attire customers.

¶ This practically eliminates competition for the retailer as he has goods to offer that can be had at no other shop.

¶ The factory now operated by Male Attire Company has been equipped with the newest machinery and appliances, developed during many years of experience.

¶ They are particularly proud of the designing equipment, and tailoring and manufacturing plant.

¶ Male Attire has been justly famous for its uniform high quality for some years, and it is likely to stand on the top rung in the history of confection of good clothes for gentlemen.

The policy of this Company has been to open agencies in every town in Canada where there is a demand for good clothes, towns where men want to be well dressed, tastefully and comfortably attired, and at the same time be economical in their outlay.

¶ Another feature of this Company's progressiveness is the unlimited advertising facilities which they offer their agents.

¶ The policy of the publicity department is to go direct to the consumer.

¶ At any of their stores it is possible to get made-to-measure garments just as you would from the best class of tailors. This rounds up the proposition which in its entirety has more than demonstrated the good judgement of its organisers.
